5695 Beggs Road
Orlando, FL 32810

Dear Randy Brooks,

I want to take a moment to thank you and your organization for the repair you did to the roof of my metal building in Longwood, Florida.

For the last two days it has rained a tremendous amount and for the first time in several years I have not worried about it raining **inside** my office.

Many construction contractors and roofing companies quoted me a very high price to 'recoat' my roof when all I needed was a gutter replacement. Many other companies have declined to quote because they did not have the expertise to repair my roof.

Aagaard-Juergensen quoted me a reasonable fee and did an excellent job of repairing my roof. Your team showed up on time and finished on time. They were professional in every sense of the word. You replaced my rusted gutter system with a stainless gutter and my problems should be solved indefinitely.

I wish all my facility needs could be met with the high level of professionalism that was demonstrated by your organization.

Again, thank you for a job well done.

Sincerely,

Ken Smart
President
