Dear Randy:

Ever since our rather recent move to Orlando (1988) we had been looking forward to making our corporate home in the Central Florida Research Park. Now after three plus years of renting what rapidly became inadequate space, Invivo is proud to occupy our new 24000 sq-foot space, which you recently completed for us.

Having built our previous facility in Oklahoma ourselves, we were knowledgeable but unmotivated to tackle such responsibility again. You, Walt, your entire group "walked the full mile" to bid, win and construct our project. The whole process was done professionally and fairly, in short it was our good fortune to have chosen AAGAARD-JUERGENSEN as the contractor of our new corporate home.

Thanks for your great work. Its companies like yours that become, and remain the long term players and driving forces of a given business by providing their customers with absolute satisfaction.

Sincerely,

Roger E. Susi
President
